Company Logo/Banner Setup

User Guide

Last update October 15, 2014

Contents

1. What is The Purpose

Centers can add their private brand to the use of OnCare at their centers in two ways: a company logo and a company banner. The logo and banner appear in the OnCare system as shown in the example below.

You can provide the following 2 images to OnCare and we can upload to your OnCare account:

- **The logo size is 60 x 250 pixels**
- **The company banner size 100 x 778 pixels**

It is important that the logo and banner file has the recommended pixels. Otherwise, the image will appear distorted.

Please email the logo and banner file to clientsupport@oncarecloud.com. The typical turn-around time to upload the logo and banner file is within 24 hours.

2. Company Logo

After logging in, the company logo appeara on the upper lefthand side of the OnCare application as shown below:

3. Company Banner

The company banner will appear on the top of the center Time Clock when you launch the OnCare Sign In/Out Program.

Company banner goes here. Must be horizontal with 100x778 pixels
